

ABIA Pylon Display Case

One of ten cases on the secure side of the concourse.
All cases have identical measurements and profiles.

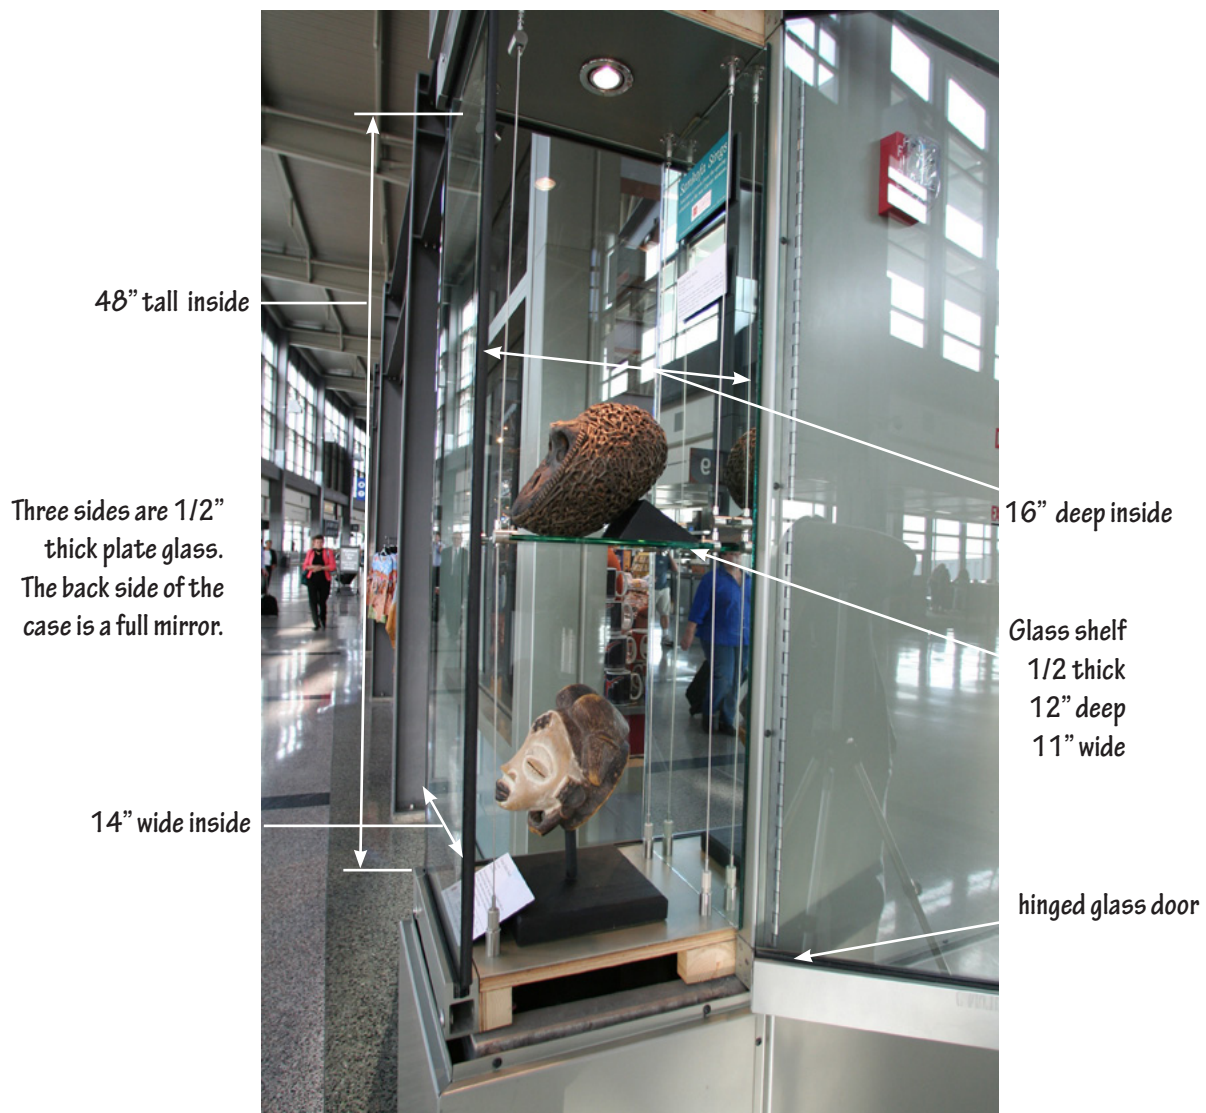

Photo above shows access door open with one glass shelf and the bottom of the case used as a display level.

Maximum number of glass shelves per case: 2 ea. Glass shelves are adjustable up or down.

Glass shelves can be removed if artwork requires full interior height of the case. With advance permission from ABIA, cables used to support shelves can be removed. Maximum weight per item on a glass shelf: 30 lbs.

Interior measurements of the case: 14" wide, 16" deep & 48" tall. Each case has one 25watt lamp shining down.

All artwork displayed must be free standing or have a holder provided by the artist. NO screws or fasteners may be used to hang or support the artwork to the inside of the case. Any adhesives used inside the display case must be approved by ABIA in advance of the installation.

ABIA Provides all placards and showcase graphics. All artwork installed shall be by appointment with the ABIA art coordinator and the organizing group or artist.
